Terms of Use

These data are distributed under the following terms of use. By continuing past this page, you signify your agreement to comply with the requirements as stated below:

Privacy of Research Subjects

Any intentional identification of a research subject (whether an individual or an organization) or unauthorized disclosure of his or her confidential information violates the promise of confidentiality given to the providers of the information. Disclosure of confidential information may also be punishable under federal law. Therefore, users of data agree:

- To use these datasets solely for research or statistical purposes and not for re-identification of specific research subjects.
- To make no use of the identity of any research subject discovered inadvertently and to report any such discovery to CBHSQ and SAMHDA (samhda-support@samhsa.hhs.gov)

Citing Data

You agree to reference the recommended bibliographic citation in any of your publications that use SAMHDA data. Authors of publications that use SAMHDA data are required to send citations of their published works for inclusion in a database of related publications.

Disclaimer

You acknowledge that SAMHSA will bear no responsibility for your use of the data or for your interpretations or inferences based upon such uses.

Violations

If CBHSQ determines that this terms of use agreement has been violated, then possible sanctions could include:

- Report of the violation to the Research Integrity Officer, Institutional Review Board, or Human Subjects Review Committee of the user's institution. A range of sanctions are available to institutions including revocation of tenure and termination.
- If the confidentiality of human subjects has been violated, then report of the violation may be made to the Federal Office for Human Research Protections. This may result in an investigation of the user's institution, which can result in institution-wide sanctions including the suspension of all research grants.
- Report of the violation of federal law to the United States Attorney General for possible prosecution.
- Court awarded payments of damages to any individual(s)/organization(s) harmed by the breach of confidential data.

Promise of confidentiality

A promise to a respondent or research participant that the information the respondent provides will not be disseminated in identifiable form without the permission of the respondent; that the fact that the respondent participated in the study will not be disclosed; and that disseminated information will include no linkages to the identity of the respondent. Such a promise encompasses traditional notions of both confidentiality and anonymity. In most cases, federal law protects the confidentiality of the respondent's identity as referenced in the Promise of Confidentiality. Under this condition, names and other identifying information regarding respondents would be confidential.

Research subject

A person or organization that participates in a research study. A research subject may also be called a respondent. A respondent is generally a survey respondent or informant, experimental or observational subject, focus group participant, or any other person providing information to a study.

Information about Copyrighted Content

Some instruments administered as part of this study may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

2002 NATIONAL SURVEY ON DRUG USE AND HEALTH CAI INSTRUMENT REVISIONS

General/Misc.

- For variables requiring an answer in number of days or nights per year (range 1-365), all upper bounds were changed from 365 to 366.

All Core Drugs

- Inconsistency resolution questions for recent new users were added to all core drug modules. These questions are triggered if there was a discrepancy between the respondent's age at first use and month/year of first use. The respondent is routed through inconsistency resolution questions that ask which piece of information is correct, then ask the respondent to fix the incorrect piece(s) of information.

Module Specific

Introduction

- Introductory screens were separated from the Core Demographics section and placed into a new section entitled Introduction.
- New variables FIIDCON and FIIDENT were added to the beginning of the instrument. FIIDCON displays the Field Interviewer (FI) ID associated with the interview laptop and asks the FI to verify that the ID is correct. If the FI responds with "No", they are routed to FIIDENT where they can enter their correct ID.
- Updated CAI version number, OMB number, and OMB expiration date.
- Added Blaise version number (4.5) to the CAI programming specifications.
- REMINDFI was turned into a question asking the FI if they've read the Intro to CAI to the respondent. If the FI indicates they haven't read the Intro to CAI to the respondent, a new question, INTROCAI, prompts them to do so.

Core Demographics

- Many of the inconsistency checks triggered throughout the questionnaire are based on the respondent date of birth entered at the beginning of the interview. A new variable, CONFDOB, was added that asks the FI to verify the date of birth entry with the respondent prior to confirmation of age.

- Response options 12 and 13 in QD06 (Which of these groups **best** describes you?) were filled in with “Other racial group” and “Other Asian group”, respectively. This separated the Asian racial grouping, and was inconsistent with the response option listing in QD05 (Which of these groups describes you?). Logic for response options 12 and 13 in QD06 were switched so that “Other Asian group” would be listed first in 12, and “Other racial group” would be listed last in 13, right before “None of these”.

Tutorial

- Added ADVISE RESPONDENT NOT TO USE THE TOUCHPAD to the interviewer instructions on the INTROACASI screen.
- Added a question, ALLAPPLY, that shows the respondent how to interact with a “code all that apply” question. The question asks the respondent to indicate all types of music they listen to from a precoded list of various music categories.

Tobacco

- In CG10 (how many cigarettes did you smoke in the past 30 days?), "per day" was deleted in each response option. This question is for respondents who only smoked one day in the past 30 days.
- Questions CG16y1 through CG16m2 were added to get the month and year a respondent first started smoking every day for new daily smokers. These questions were patterned after the question series used in all core drug modules to collect month and year of first use from new users.

Alcohol

- For all core drug modules, if the respondent indicates they used in the past 30 days, they are then asked how many days they used in that time period. If the respondent doesn't know or refused, they are asked to provide an estimate, within the ranges 1-2, 3-5, 6-9, 10-19, 20-29, and 30. An estimation variable is then created using the lower end of their answer. This estimation variable is calculated the same way across all drug modules.

The alcohol module differs from the other core drug modules in that the respondent is also asked for the number of days in the past 30 days that they had five or more drinks on one occasion, known as "binging". This answer is compared with the overall level of past 30 day use, and if the overall level is lower than the binge level, inconsistency resolution questions are triggered.

Using the lower end of the estimation range to calculate the alcohol estimation variable, ESTIALC, was problematic. As an example, if a respondent estimated their overall use as 6-9 within the past 30 days, ESTIALC was calculated as 6. If the respondent then reported 8 binge days in the past 30 days, the inconsistency resolution questions were triggered. To counter this, another variable, ESTIALC2, was created which calculated the estimate rate using the higher end of the estimation range. ESTIALC2 was then used to compare past 30 day use with past 30 day "binge" use.

Special Drugs

- If the respondent reports in SD01 that they have smoked heroin or reported they have snorted heroin in SD03, they are given a followup question asking for the most recent time they did this. (SD02 or SD04, respectively). If the respondent reports in SDHEUSE or SD08 that they have injected heroin, they also get a recency question. However, if they report in SDHEUSE that they have smoked or snorted heroin, they were not asked about recency. Two new recency questions were added for these respondents. SDHEUSE3 is now asked if the respondent reports they have smoked heroin, and SDHEUSE4 is asked if they report they have sniffed or snorted heroin.
- Respondents who reported they have injected heroin (SD08 or SDHEUSE), cocaine (SD06), methamphetamine (SD10a), or any other stimulant (SD10c), but then said "no" to SD05 (have you ever used a needle to inject any other drug), were getting skipped out of SD12-16 (needle use behavior questions). The CAI logic was corrected to include these respondents.

Specialty Cigarettes

- The lower bound of SPCIG04's (how many bidis smoked in the past 30 days) range was changed from 0 to 1.
- The lower bound of SPCIG08's (how many clove cigarettes smoked in the past 30 days) range was changed from 0 to 1.

Drug Treatment

- TX22A was added, asking the respondent why they did not make an effort to get needed treatment. If they indicate Other as a reason, they are allowed to specify up to 5 other responses.
- A parallel question was also added asking the respondent why they did not make an effort to get **additional** treatment they needed, TX23A. If they indicate Other, they are allowed to specify up to 5 other responses.

Drug Dependence and Withdrawal

- Question DRCGE06 breaks up the respondent's reference of “past 30 days.” Wording for DRCGE06b and DRCGE07 was added to get the respondent back on track. “Think about your use of cigarettes during the past 30 days as you answer these next questions.” Was added to the beginning of DRCGE06b. It was added to the beginning of the DRCGE07 if DRCGE06b is blank.

Special Topics

- Changed “excluding” to “not including” in SP03o (in the past 12 months, were you arrested and booked for any other sexual offense, not including rape or prostitution?).
- Added inconsistency resolution questions (SP03r-SP03ssp) at the end of the arrest and booking question series. Respondents who indicate they’ve been arrested and booked in the past 12 months, but answer "No" to all arrest and booking questions are now asked to resolve this inconsistency.

Adult Mental Health Service Utilization

- Added probe questions directly after ADMT01 (stayed overnight or longer in a hospital or facility for mental health reasons during the past 12 months), ADMT13 (received outpatient mental health treatment during the past 12 months) and ADMT25 (took prescription medication to treat a mental condition in the past 12 months) if the respondent refused to answer them (ADMTREF1, ADMTREF13 and ADMT25, respectively).
- 2001 Quarter 1 data showed that the majority of answers to ADMT12 (how much money paid for inpatient mental health care over past 12 months) were in the \$5,000 and more category. Response categories were revised to include \$5,001-\$7,500, \$7,501-\$10,000 and More than \$10,000.
- Specify questions (ADMT27SP-ADMT27SP4) were added for those who indicate “other” for ADMT27 (reasons for not getting needed mental health treatment).

Youth Experiences

- Added questions about youth tobacco access (YE35a-YE35b). For youth who smoked in the past 30 days, but report not buying cigarettes from a store or gas station in the past 30 days, YE35b asks if they tried to buy from a store/gas station. For past 30 day smokers who said they did not buy cigarettes at all, YE35a asks how they got the cigarettes they smoked during the past 30 days.

- The lower bound of the range in YE43 (how many days smoked a cigar with marijuana in it in the past 30 days) was changed from 0 to 1 to be consistent with the past 30 day questions within the cigarettes section.

Serious Mental Illness

- Updated PHWORST (which fear mentioned in the SMI is the strongest for the respondent) so that only highlighted response options are valid.
- GANRVLOT (more or less nervous than others?) response options were reworded to be consistent with GAWORLOT (worry more or less than others?)

Back-end Demographics

- If the answer to QD18 (grade of school now attending) was within two years of QD11 (grade of school completed), an error box was triggered, and the FI had to either fix the information or explain it. This hard error was changed to only trigger the error box if question QD18 is less than QD11 by a year or more.
- Made wording in QD19 (full-time or part-time student status) dependent on whether the respondent is currently attending school or will be attending school after vacation/holiday.
- If INOC06's (which of these categories best describes the business in which you work) answer is "self-employed", QD34, which asks if the respondent has been self-employed at all in the past year, is now skipped.
- Added a date fill to the beginning of INOC07 (industry last worked in) to indicate which past job to refer to.
- Entering 9999 for "Never worked for pay" in QD39a (year last worked) clashed with the code 9999 the editing staff use to indicate "missing data". The code for "Never worked for pay" was changed to 9991.
- Updated state CHIP, Medicare/Medicaid and TANF program names in the Health and Income sections.
- Edit checks within the household roster were added to help get the highest quality data in the field. These checks are:
 - ✓ If the respondent reports more than one spouse or live-in partner.
 - ✓ Respondent's age entered in the household roster is checked with CURNTAGE (respondent's current age).

- ✓ If the FI enters a relationship code of 2 or 11 (father or grandfather) for a household member, then the respondent should be younger.
- ✓ If the FI enters a relationship code of 3 or 9 (son or grandson) for a household member, then the respondent should be older
- Proxy questions were skipped if "don't know"s or "refusal"s were entered in the household roster for any household member ages. QP01 (if a proxy is needed) is now asked if no one else in the household roster is 18 or older, and there's at least 1 "don't know" or "refused" entered for age in the roster.
- The upper bound in the CAI logic for QHI02a (covered by CHIP?) was changed from 17 to 19.

Verification and FI Observations

- Wording in TOALLR3I (instructions to the respondent on how to fill out the verification form) was updated to match our protocol.
- INCENT01 (ending the interview with the respondent) and INCENT02 (did the respondent accept the incentive payment?) were updated to refer to the \$30 incentive payment.
- In the FI Debriefing Questions, incentive debriefing questions (INCENT02-INCENT17) were added. (Missing question numbers are questions included in the Incentive Experiment CAI, but excluded from the 2002 NSDUH.)
- In FIDBF02 (where did the interview take place?), response option number 3 was changed from RESTAURANT to IN SOME TYPE OF CONFERENCE ROOM ATTACHED TO A RESIDENCE HALL, SCHOOL, OR APARTMENT COMPLEX. The NSDUH protocol does not allow interviews to be conducted in a restaurant.
- New debriefing questions, FIDBF04A and FIDBF04B, were added to try to capture information on how many of the pillcards respondents use.
- A new debriefing question, FIDBF04c, was added asking the FI for how much of the interview the respondent had their headphones on.
- In FIDBF07 (how private was the interview?), response option 2 was revised to specify that MINOR DISTRACTIONS referred to distractions from other people.

CALENDAR CALENDAR

Throughout the rest of this questionnaire, I will be asking you to answer a number of questions about three specific time periods, namely the past 30 days, the past 12 months, and your lifetime. To help you remember the first two time periods, let's mark this calendar with the beginning dates for each one of them.

SHOW CALENDAR TO RESPONDENT.

Now let's think about the past 30 days. According to the calendar **[DATEFILL]** was 30 days ago, so I will write **[DATEFILL]** here on the calendar. I'll call that your 30-day reference date.

WRITE 30-DAY REFERENCE DATE ON CALENDAR AND CIRCLE DAY; UNDERLINE ENTIRE 30-DAY PERIOD.

A number of questions will ask about the past 12 months, that is since this date last year. Let's look at the calendar and find that date — **[DATEFILL]** . I'll call that your 12-month reference date.

WRITE 12 MONTH REFERENCE DATE ON CALENDAR, AND CIRCLE DAY ON CALENDAR.

Please use this calendar as we go through the interview to help you remember when different things happened. I will remind you to think about your 30-day reference date and your 12-month reference date when I ask you questions.

PRESS [ENTER] TO CONTINUE.

Beginning ACASI Section

INTROACASI An important part of this interview is the sections you will conduct completely on your own using the computer and the headphones. Before you begin, I will help you go through a short practice session to learn how to use the computer.

MOVE COMPUTER SO RESPONDENT CAN USE IT AND POINT OUT THE FOLLOWING:

NUMBER KEYS
[ENTER] KEY
SPACE BAR
BACKSPACE KEY
THE BOTTOM OF THE SCREEN WHERE THEIR ANSWERS WILL APPEAR

CAUTION RESPONDENT ABOUT ON/OFF SWITCH.

ADVISE RESPONDENT NOT TO USE THE TOUCHPAD.

ADJUST HEADPHONES FOR RESPONDENT AND DEMONSTRATE VOLUME CONTROL.

WHEN RESPONDENT IS READY, PRESS "1" TO CONTINUE.

Tutorial

INTRO1 Welcome to the RTI self-interviewing system. We developed this system so that you can control the interview yourself and enter your answers in complete privacy.

First, you will learn how to use the system and complete some practice questions. You will learn how to enter answers, how to back-up if you make a mistake and want to change an answer, and what to do if you do not know the answer to a question.

Press the large [ENTER] key on the right side of the keyboard to move to the next screen. The [ENTER] key is the one with the ↵ symbol on it.

INTRO2 In this system you can read the questions on the computer screen and hear them read through the headphones. If you would like to just see the questions on the screen, you can turn off the voice. You will learn how to do this.

Press the large [ENTER] key on the right side of the keyboard to move to the next screen. The [ENTER] key is the one with the ↵ symbol on it.

HEAROFF You can lower the sound by adjusting the control on the cord of the headphones. Or, if you don't want to listen to the sound at all, you can press the [F7] key to turn the sound off. If you want to hear the questions read aloud, you can press the [F7] key again to turn the sound back on.

Press [ENTER] to continue.

GOTDOG You answer questions by putting in numbers that correspond to your answer. The numbers are located in the second row of keys.

To answer a question, you first press the correct number and then press [ENTER] to send the answer to the computer. Practice this now.

Do you have a dog?

- 1 Yes
- 2 No
- DK/REF

EYECOLOR The last question was a Yes-No question. Sometimes questions will have more answers to choose from, and you will select an answer from a list.

What color are your eyes? Put in the number that best fits you and press the [ENTER] key.

- 1 Blue
- 2 Gray
- 3 Brown
- 4 Black
- 5 Some other color
- DK/REF

ALLAPPLY Some questions will let you choose more than one answer. For these questions, you will use the space bar to separate the answers you type in. Try doing this on the next question. Put in more than one answer, using the space bar between your answers.

What kinds of music do you listen to?

To select more than one kind of music from the list, press the space bar between each number you type. When you have finished, press the [ENTER] key to go to the next question.

- 1 Country
- 2 Soul/R&B
- 3 Jazz
- 4 Classical
- 5 Pop/Rock

- 6 Hip Hop
- 7 Techno
- 8 Latin American/Spanish
- 9 Other Folk/Ethnic
- DK/REF

NUMBER Other questions will ask you to type in a number rather than choosing a category.

In the past 30 days, on how many days did you eat breakfast? Type in the number of days you ate breakfast and press [ENTER].

_____ [RANGE: 0 - 30]
DK/REF

STOPLIST If the list is long, and we come to your answer before the end, you can interrupt the voice and put your answer in as soon as you decide what it is.

Try doing this on the next question. Put in your answer while the list is being read. Remember to press [ENTER].

When do you want to interrupt this list?

- 1 First answer
- 2 Second answer
- 3 Third answer
- 4 Fourth answer
- 5 Fifth answer
- 6 Sixth answer
- 7 Seventh answer (Go ahead and press 7 and [ENTER] now.)
- 8 Eighth answer (This is the last answer choice. Press 8 and [ENTER] now.)
- DK/REF

DOAGAIN You can also hear a question read more than once. To do this, you press the [F10] key. Try this now.

Questions can be read more than once and it is up to you to tell the computer when you want to hear a question again. You can hear it as many times as you like.

How many times did you listen to this screen?

- 1 I have listened to this screen more than once.
- 2 I have only listened to this screen one time
- DK/REF

BACKUP If you want to change or review an answer to a previous question, you can back up using the [F9] key. Each time you press the [F9] key the computer will go back one question.

Press [ENTER] to continue.

rangeerr For some questions, the computer can only accept certain answers. For example, in the question below, the only answers the computer will accept are 1 for YES and 2 for NO.

If you try to enter some other number as your answer, a small box labeled **Input Invalid** will appear on the screen. To correct your answer, you must press the [ENTER] key to make the box disappear and then use the **Backspace key** to remove your old answer. You can then answer the question again.

Try this with the question below. Type a 3 as your answer. Press the [ENTER] key to remove the **Input Invalid** box. Use the **Backspace key** to remove your answer and type in a valid answer.

Do you have a cat?

- 1 Yes

2 No
DK/REF

INCONSIS

At times the computer may ask you to review one of your answers. Other times, it may think two of your answers disagree and ask you to tell which one is correct and then fix the wrong one.

Also, at certain times the computer will instruct you to ask your interviewer to show you some pictures. Be sure to ask for these pictures when you get to this instruction.

Press [ENTER] to continue.

ANYQUES

If you have any questions, ask your interviewer now. Otherwise, press [ENTER] to begin.

Tobacco

LEADCIG These questions are about your use of tobacco products. This includes cigarettes, chewing tobacco, snuff, cigars, and pipe tobacco. The first questions are about cigarettes only.

Press [ENTER] to continue.

Inhalants

INHINTRO These next questions are about liquids, sprays, and gases that people sniff or inhale to get high or to make them feel good.

We are not interested in times when you inhaled a substance accidentally — such as when painting, cleaning an oven, or filling a car with gasoline. The questions use the word ‘inhalant’ to include all the things listed below, as well as any other substances that people sniff or inhale for kicks or to get high. Take a moment to look at the substances listed below so you know what kinds of liquids, sprays, and gases these questions are about.

Amyl nitrite, ‘poppers,’ locker room odorizers, or ‘rush’
Correction fluid, degreaser, or cleaning fluid
Gasoline or lighter fluid
Glue, shoe polish, or toluene
Halothane, ether, or other paint solvents
Lighter gases, such as butane or propane
Nitrous oxide or ‘whippets’
Spray paints
Other aerosol sprays

Press [ENTER] to continue.

INTROST1 These next questions ask about the use of drugs such as amphetamines that are known as **stimulants**, ‘uppers,’ or ‘speed.’ People sometimes take these drugs to lose weight, to stay awake, or for attention deficit disorders. We are **not** interested in the use of “over-the-counter” stimulants such as Dexatrim or No-Doz that can be bought in drug stores or grocery stores without a doctor’s prescription.

Ask your interviewer to show you Card C.

Press [ENTER] to continue.

INTROST2 Card C shows pictures of some different kinds of prescription stimulants and lists the names of some others. These pictures show only pills, but we are interested in your use of **any** form of prescription stimulants that were **not** prescribed for you or that you took only for the experience or feeling they caused.

Please look at Card C carefully as you answer the next questions.

Press [ENTER] to continue.

ST01 Please look at the stimulants shown in Box 1 **above** the red line on Card C.

Have you ever, even once, used **Methamphetamine, Desoxyn, or Methedrine** that was **not** prescribed for you or that you took only for the experience or feeling it caused? Methamphetamine is also known as crank, crystal, ice, or speed.

Sedatives

INTROSV1 These next questions ask about the use of **sedatives or barbiturates**. These drugs are also called “downers” or “sleeping pills.” People take these drugs to help them relax or to help them sleep. We are not interested in the use of “over-the-counter” sedatives such as Sominex, Unisom, Nytol, or Benadryl that can be bought in drug stores or grocery stores without a doctor’s prescription.

Ask your interviewer to show you Card D.

Press [ENTER] to continue.

INTROSV2 Card D shows pictures of some different kinds of prescription sedatives and lists the names of some others. These pictures show only pills, but we are interested in your use of **any** prescription sedatives that were **not** prescribed for you, or that you took only for the experience or feeling they caused.

Please look at Card D carefully as you answer the next questions.

Press [ENTER] to continue.

SV01 Please look at the sedatives shown in Box 1 **above** the red line on Card D.

Have you ever, even once, used **Methaqualone, Sopor, or Quaalude** that was **not** prescribed for you or that you took only for the experience or feeling it caused?

Risk/Availability Section

RKQ1 We are interested in your opinion about the effects of using certain drugs and other substances, about whether it's difficult or easy to get drugs, and the extent to which drugs are available in your neighborhood.

Please indicate how much you think people risk harming themselves physically and in other ways when they do each of the following activities.

If you're not sure, choose an answer for the amount of risk that comes closest to what you think might be true for that activity.

CHAMPUS stands for Comprehensive Health and Medical Plan for the Uniformed Services. It provides health care in private facilities for dependents of military personnel on active duty or retired for reasons other than disability. In some areas, this may be known as TRICARE.

CHAMPVA stands for Comprehensive Health and Medical Plan of the Veterans Administration. It provides health care for the spouse, dependents, or survivors of a veteran who has a total, permanent service-connected disability.

Military health care refers to health care available to active duty personnel and their dependents; in addition, the VA provides medical assistance to veterans of the Armed Forces, particularly those with service-connected ailments.
