# Terms of Use

These data are distributed under the following terms of use. By continuing past this page, you signify your agreement to comply with the requirements as stated below:

## Privacy of Research Subjects

Any intentional identification of a research subject (whether an individual or an organization) or unauthorized disclosure of his or her confidential information violates the promise of confidentiality given to the providers of the information. Disclosure of confidential information may also be punishable under federal law. Therefore, users of data agree:

- To use these datasets solely for research or statistical purposes and not for re-identification of specific research subjects.
- To make no use of the identity of any research subject discovered inadvertently and to report any such discovery to CBHSQ and SAMHDA ([samhda-support@samhsa.hhs.gov](mailto:samhda-support@samhsa.hhs.gov))

## Citing Data

You agree to reference the recommended bibliographic citation in any of your publications that use SAMHDA data. Authors of publications that use SAMHDA data are required to send citations of their published works for inclusion in a database of related publications.

## Disclaimer

You acknowledge that SAMHSA will bear no responsibility for your use of the data or for your interpretations or inferences based upon such uses.

## Violations

If CBHSQ determines that this terms of use agreement has been violated, then possible sanctions could include:

- Report of the violation to the Research Integrity Officer, Institutional Review Board, or Human Subjects Review Committee of the user's institution. A range of sanctions are available to institutions including revocation of tenure and termination.
- If the confidentiality of human subjects has been violated, then report of the violation may be made to the Federal Office for Human Research Protections. This may result in an investigation of the user's institution, which can result in institution-wide sanctions including the suspension of all research grants.
- Report of the violation of federal law to the United States Attorney General for possible prosecution.
- Court awarded payments of damages to any individual(s)/organization(s) harmed by the breach of confidential data.

## Definitions

### CBHSQ

Center for Behavioral Health Statistics and Quality

### Promise of confidentiality

A promise to a respondent or research participant that the information the respondent provides will not be disseminated in identifiable form without the permission of the respondent; that the fact that the respondent participated in the study will not be disclosed; and that disseminated information will include no linkages to the identity of the respondent. Such a promise encompasses traditional notions of both confidentiality and anonymity. In most cases, federal law protects the confidentiality of the respondent's identity as referenced in the Promise of Confidentiality. Under this condition, names and other identifying information regarding respondents would be confidential.

### Research subject

A person or organization that participates in a research study. A research subject may also be called a respondent. A respondent is generally a survey respondent or informant, experimental or observational subject, focus group participant, or any other person providing information to a study.

## **Information about Copyrighted Content**

Some instruments administered as part of this study may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

### **NOTICE WARNING CONCERNING COPYRIGHT RESTRICTIONS**

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

## **2005 NATIONAL SURVEY ON DRUG USE AND HEALTH CAI INSTRUMENT REVISIONS**

### **General/Misc.**

- The text instructing respondents and interviewers to use the backspace key to delete out of range answers was removed from all hard error boxes, range error boxes, and the variable RANGEERR. Use of the backspace key is unnecessary in the version of Blaise used to program the 2005 NSDUH questionnaire; the respondent or interviewer can simply type over any incorrect answer.

### **Module Specific**

#### ***Introduction***

- The Blaise version, CAI instrument version, and the OMB expiration date for the main study were updated.
- The OMB number, OMB expiration date, and location of the Intro to CAI for the reliability study pretest were added.
- The address of the SAMHSA Reports Clearance Officer was updated.

#### ***Core Demographics***

- FIPE1 (whether two respondents were selected from the household) was modified to be asked only in main study cases, since no pairs will be selected for the reliability study.

#### ***Calendar***

- Wording of the CALENDAR instructions was simplified.

#### ***Beginning ACASI Section***

- The statement "...learn how to use the computer" was expanded to include, "and our interview program," to encourage computer-literate respondents to pay attention to the tutorial.
- Interviewer instructions on INTROACASI1 were changed from "MOVE COMPUTER SO RESPONDENT CAN USE IT" to "MOVE COMPUTER SO RESPONDENT CAN SEE THE KEYBOARD." The instruction, "MOVE COMPUTER SO RESPONDENT CAN USE IT," was moved to INTROACASI2. This change was made so that the interviewer and respondent can both comfortably view the keyboard during the interviewer-administered portion of the tutorial.

- The statement, “[POINT TO F7] If you want to turn the sound off, press F7. To turn it on again, press F7 again,” was inserted into the screen INTROACASI1.
- The touchpad warning, “This will disable the interview,” was changed to, “This might disrupt the interview,” so that it would sound less intimidating to novice computer users.

### ***Computer Tutorial***

- HEAROFF was deleted because a number of respondents were turning off the sound during the computer tutorial and failing to turn it back on for the interview. To inform respondents about the proper use of the F7 key, instructions for turning sound on and off were inserted into the Beginning ACASI section as described above.
- The item RANGEERR was reworded to reflect the changed instructions for correcting out-of-range responses.

### ***Tobacco***

- Cigarette brand name response options were updated for questions CG11, CG11a, RCG11, RCG11a, RRCG11, and RRCG11a (brand used most often by 30-day cigarette smokers), based on response distributions and “other, specify” data in previous years.
- The response option “Mediums” was added to questions CGTAR1 and CGTAR2, regarding the type of cigarettes the respondent smoked most often during the past 30 days. This change was made at the request of our consultant on tobacco issues.
- A question was added (CGLNTH) to capture additional information on the length of Marlboro cigarettes (shorts, regular/king-sized, or 100s) the respondent smoked most often during the past 30 days. This change was made at the request of our consultant on tobacco issues.
- Snuff brand name response options were updated for questions CG30, RCG30 and RRCG30 (brand used most often by 30-day snuff users), based on response distributions and “other, specify” data in previous years.
- Cigar brand name response options were updated for questions CG39, RCG39 and RRCG39 (brand used most often by 30-day cigar smokers), based on response distributions and “other, specify” data in previous years.

### *Alcohol*

- The instruction “Press [ENTER] to continue” on screen CARD3A (list of alcoholic beverages) was made blue on screen (bold in the specifications document) to make it more noticeable to the respondents.

### *Pain Relievers*

- In the Pain Relievers section, there are consistency check questions (PRCC24 - PRCC27) that correct inconsistent information on recency of general pain reliever use and Oxycontin use. In the past, if a respondent revised his or her recency of general pain reliever or Oxycontin use in response to these consistency checks, the CAI did not capture the past 12 month frequency of use for that substance. To capture this information, a set of questions (PR10a - PR13a) parallel to the original 12-month frequency questions (PR10 - PR13) have been added after the recency consistency checks (PRCC24 - PRCC27). Any respondent who revises his or her recency of general pain reliever or Oxycontin use and has not received the earlier questions about past 12 month frequency of use is routed through these new questions.

### *Special Drugs*

- Questions SD17a - SD18b (lifetime use of methamphetamine, recency of use, lifetime use with a needle, and recency of use with a needle) were added. These items ask about methamphetamine use out of the context of prescription drug use, using the street names “crank, ice, crystal meth, speed, [and] glass” and including a full description of the drug and how it might be taken. This description is written in a form similar to the descriptions of each category of illicit substance in earlier modules. These items are intended to capture respondents who have used methamphetamine but erroneously answered “no” in the Stimulants section, either because they did not recognize the street names in question ST01 or because they did not think of methamphetamine as a prescription drug.
- The logic for item SD05 was modified to include responses to SD18a.
- The logic for item SD10c was modified to include responses to SD17a.

### *Blunts*

- The definition of blunts in item BL01 was revised from “...take some tobacco out of a cigar and replace it with marijuana” to “...take tobacco out of a cigar and replace it with marijuana.” This change was made based on findings during cognitive interviewing.

- Questions BL08 – BLCC06 were added to capture age at first use of blunts. These questions were patterned after the age of first use questions and subsequent consistency check questions in the core drug modules.

### *Definitions for Use in the Drugs Module*

- Items SD17b and SD18b (described above) were added to the definition of the variable STI12MON.

### *Market Information for Marijuana*

- “Other, specify” questions MJE27SP, MJE57SP, and MJE66SP were added to capture additional information on the place where the respondent last purchased marijuana, traded something for marijuana, or got marijuana for free. These questions were added after a review of the data from MJE27, MJE57, and MJE66 revealed that about 17% of the responses to these items were “some other place.”
- Skip pattern instructions for MJE32 (during the past 12 months, did the respondent trade something for marijuana) were edited to include respondents who said they didn’t know or refused to provide an answer for MJE01 (how the respondent obtained the marijuana he or she last used).

### *Prior Substance Use*

- Inconsistency resolution questions were added for each substance to correct discrepancies in which the respondent’s current age is less than the age at which he or she last used the substance.
- Inconsistency resolution questions were added for each substance for respondents whose last use of the substance was more than 30 days prior to the interview. These questions correct discrepancies between the respondent’s reported age at last use of the substance and the month and year in which he or she last used the substance.
- Questions LU27 - LU36SP were added to capture the source of all psychotherapeutic drugs, including methamphetamine, used non-medically by the respondent in the past 30 days, as well as the source of the one last used by the respondent in the past 12 months.
- Questions LU37 – LU39 were added to capture use of cigarettes, alcohol and cocaine 12-24 months before the interview. These questions parallel the existing item LU01 (12-24 month usage of marijuana).

### *Health Care*

- The questions asking about physical, mental, or health problems interfering with work in the last 12 months (WORKSCHL, WORKPREV, WORKLIM, and

PROBYTPE) were deleted to make room for the new health outcome questions CHKLST and CHK12M.

- The “code all that apply” questions CHKLST (health conditions with which the respondent has ever been diagnosed) and CHK12M (health conditions with which the respondent has been diagnosed in the past 12 months) were added to investigate correlations with substance use.
- Because the routing logic of CHK12M is dependent upon the response to CHKLST, an edit check was included to resolve cases in which “None of the above” is selected along with one or more of the conditions from CHKLST. A similar edit check was added for CHK12M, along with a hard error that prevents selection of health conditions in CHK12M that were not selected in CHKLST.

### ***Social Environment***

- The section name was changed from “Social and Neighborhood Environment” to “Social Environment.”
- The questions SEN01A - SEN02E (Neighborhood Cohesiveness Scale) were deleted and the introduction LEADSEN was changed to exclude the reference to the scale.

### ***Serious Mental Illness***

- All items in the module were deleted except the six variables that create the K-6 score (DIINTRO, DSNERV1, DSHOPE, DSFIDG, DSNOCHR, DSEFFORT, and DSDOWN).
- The sampling algorithm was deleted so that all respondents age 18 and older will receive the K-6 questions and the Adult Depression module.

### ***Youth Mental Health Service Utilization***

- “Code all that apply” questions were added listing additional precoded possible reasons for having received treatment for emotional or behavioral problems (not caused by alcohol or drugs) at each possible treatment outlet (YSU03A, YSU06A, YSU09A, YSU12A, YSU15A, YSU18A, YSU21A, YSU24A, and YSU27A). These additions were made as the result of an evaluation of “other, specify” data.

### ***Back-End Demographics***

- A calculated age variable called CALCAGE2 was added after ENDAUDIO to capture the age of the respondent during the ACASI section. This was added in order to simplify editing for age-specific items and modules for cases in which the item AGE1 is changed after completion of the ACASI.

- An interviewer note was added to question QD18A (whether the respondent’s school is public, private, charter, or home schooling) explaining that a response of “public charter” or “private charter” school should be coded as “charter school.”
- Edit checks were added after questions QD18C (lowest grade or year at respondent’s school) and QD18D (highest grade or year at respondent’s school) to resolve discrepancies between the lowest grade or year at the respondent’s school, the highest grade or year at the school, and/or the grade or year the respondent is currently attending.
- An interviewer note was added to question QD27 (whether the respondent had a job or business the previous week at which he or she was not working) to clarify the definition of a job or business, and the note on QD26 was revised to use the phrase “usually works” instead of “worked.”
- The field lengths for items INOC01, INOC05, INOC07, and INOC11 were expanded from 50 to 100 characters. The field lengths for INOC02M, INOC02T, INOC03, INOC08M, INOC08T, and INOC09 were expanded from 15 to 35 characters. These adjustments were made due to changes in how the raw data are transmitted to the coding team.
- Interviewer notes were added to INOC01, INOC02M-03, INOC05, INOC07, INOC08M-09, and INOC11 to remind the interviewers of the available field lengths.
- An interviewer note was added to question QD30 (the reason the respondent was not working the previous week) describing how to code maternity leave and seasonal employment.
- Question QD39b (the month in which the respondent last worked) was restricted to only those respondents who last worked at a job or business within the current or previous calendar year. Most respondents who had not worked in more than two years had been having difficulty answering this question.
- The interviewer notes in questions MRELATON and FRELATON (the relationship of a household member to the respondent) were expanded to explain how to code exchange students and their host families.
- When a respondent answers “FATHER” to MRELATON, an additional question is asked to clarify whether this is the respondent’s biological, step-, foster, or adoptive father. Similar questions are asked for responses of “SON” or “BROTHER,” or for responses of “MOTHER,” “DAUGHTER,” or “SISTER” to FRELATON. The “BROTHER” and “SISTER” follow-up questions also include response options for half-siblings. Because the respondents are not told that the follow-up questions are going to be asked, some were erroneously identifying non-biological parents, siblings, and children as non-relatives. To correct this misunderstanding, the phrase “(INCLUDES STEP, FOSTER, ADOPTIVE)” was added to the “FATHER,” “SON,”

“MOTHER,” and “DAUGHTER” response options and the phrase “(INCLUDES HALF, STEP, FOSTER, ADOPTIVE)” was added to the “BROTHER” and “SISTER” response options in MRELATON/FRELATON.

- The household roster edit checks for the respondent being 30 years old or younger with a grandchild or 60 years old or older with a grandparent were replaced with a single edit check for situations in which the respondent and his or her grandparent/grandchild are fewer than 30 years apart.
- The grid of family members from the household roster, which appeared at the bottom of items in the proxy and income modules (QP01, QI02, QI04A, QI04B, QI06A, QI06B, QI09A, QI09B, QI11A, QI11B, QI14A, QI14B, QI16A, QI16B, QI18A, QI18B, INTROFI1, INTROFI2, and INTROFI3), has been deleted. In its place, the text of these questions was modified so that the rostered family members’ relationships are inserted into the question text. This is designed to make the questions easier for the interviewer to read and facilitate the flow of the instrument.
- The required text in questions QP02 - QP04 (questions to identify and secure participation of proxy respondent) was changed to optional text, in order to accommodate situations in which the proxy arrives during the reading of question QP01 (whether an adult family member in the household should serve as a proxy respondent).
- Item QP03 was changed from, “Is your [PROXY] here at home now?” to, “Is your [PROXY] available right now?” to accommodate situations in which the interview is being conducted outside the home.
- State Medicaid, CHIP and TANF program names were updated.
- An interviewer note was added to question QHI11 (whether the respondent is covered by any health insurance) to clarify that Indian Health Insurance should be included.
- An interviewer note was added to question QI24 (number of phone lines in household) to clarify how to code phone lines that are used only for fax machines and/or Internet access.
- Questions QI25 - QI26SP (whether respondents use the Internet and where they go to access it) were added at the request of an outside researcher.
- An interviewer note was added on a new screen RRETURN, immediately prior to QI25. This screen prompts the interviewer to locate the respondent before asking the next questions if a proxy has been responding to the health care and income questions.

### ***Verification***

- CASEID was modified for reliability study pretest reinterviews (i.e., T2 interviews).
- The screen NOTIME was added for reliability study pretest initial (T1) interviews which are completed with fewer than 5 days left in the data collection period. This screen prevents recruitment of the respondent for a T2 interview because T2 interviews may only be conducted 5-15 days after the T1 interview.
- INCENT01 was modified for reliability T1 interviews to eliminate mention of the FI Debriefing questions and to tell the FI whether he/she or a different FI will be conducting the T2 interview. The screen was modified for T2 interviews to eliminate mention of the FI Debriefing questions and to refer to the reinterview-specific incentive amount and incentive payment receipt. Mention of the FI Debriefing questions for reliability interviews was moved to the new screen THANKR2, immediately prior to FIDBFINTR.
- The screens IPAQCODE and REPLACE were added to provide interviewer instructions on activating reinterview cases in their iPAQ handheld computers.
- The screen THANKR (interviewer reminder to thank the respondent and collect the showcard booklet) was moved from the beginning to the end of the verification section. The screen was modified for reliability T1 cases to include a statement asking 12-17 year old respondents to locate a parent/guardian. This text is optional in case a parent/guardian is already present.

### ***Reinterview Pretest Recruitment Scripts***

- RECRUIT1 and RECRUIT2 were added to recruit respondents (with parental permission for 12-17 year olds) into the T2 interview and to schedule an appointment or obtain contact information.

### ***Reinterview Follow-Up Questions***

- FOLLWINT – FOLLWEXT were added to ask T2 respondents about their impressions of how the T1 and T2 questions and their own responses differed.

### ***Interviewer Debriefing***

- T1DBF1 – T2DBF03 were added to gather additional comments that respondents and parents of adolescent respondents might have made about the reliability study.
- The incentive amount cited in INCENT02 (whether the respondent accepted the incentive) was changed to \$50 for reliability T2 interviews.

- “Refuse” was removed as a possible response option for INCENT12 and INCENT13 (comments the respondent made about the incentive payment). This was done to be consistent with the other debriefing questions.
- INCENT14 (whether the respondent knew about the incentive in advance) and FIDBF10 (how the laptop influenced the respondent’s decision to participate) were modified so they are not asked in reliability T2 interviews.
- The response option “in some type of conference room attached to a residence hall, school or apartment complex” for FIDBF02 was modified to, “...conference room in a residence hall...” This was done to clarify that any conference room, not just one external to the building, should be included.

**calendar** CALENDAR

Throughout the rest of this interview, the computer will ask you questions about three time periods, the past 30 days, the past 12 months, and your lifetime. To help you remember the first two time periods, let's mark this calendar with the beginning dates for each one of them.

SHOW CALENDAR TO RESPONDENT.

Now let's think about the past 30 days. According to the calendar [DATEFILL] was 30 days ago. I'll call that your 30-day reference date, and so I will write [DATEFILL] here on the calendar. I'll call that your 30-day reference date.

WRITE 30-DAY REFERENCE DATE ON CALENDAR AND CIRCLE DAY; UNDERLINE ENTIRE 30-DAY PERIOD.

A number of questions will ask about the past 12 months, that is since this date last year. According to Let's look at the calendar and find that date — [DATEFILL] was 12 months ago. I'll call that your 12-month reference date.

WRITE 12 MONTH REFERENCE DATE ON CALENDAR, AND CIRCLE DAY ON CALENDAR.

Please use this calendar as we go through the interview to help you remember when different things happened. I will remind you to think about your 30-day reference date and your 12-month reference date when I ask you questions.

## Tutorial

**INTRO1** Welcome to RTI's self-interviewing system, which lets you control the interview and answer in complete privacy. In this system, you can read the questions on the computer screen and hear them read through the headphones.

First, you will learn how to use the system and complete some practice questions. You will learn how to enter answers and how to back-up if you make a mistake and want to change an answer.

Press the large [ENTER] key on the right side of the keyboard to move to the next screen. The [ENTER] key is the one with the ↵ symbol on it.

**INTRO2** In this system you can read the questions on the computer screen and hear them read through the headphones. If you would like to just see the questions on the screen, you can turn off the voice. ~~You will learn how to do this.~~

Press the large [ENTER] key on the right side of the keyboard to move to the next screen. The [ENTER] key is the one with the ↵ symbol on it.

~~**HEAROFF** You can lower the sound by adjusting the control on the cord of the headphones. Or, if you don't want to listen to the sound at all, you can press the [F7] key to turn the sound off. If you want to hear the questions read aloud, you can press the [F7] key again to turn the sound back on.~~

~~Press [ENTER] to continue.~~

**GOTDOG** You answer questions by putting in the number that is shown next to your answer. The numbers are located in the second row of the keyboard.

To answer a question, you first press the correct number and then press [ENTER].

Do you have a dog?

- 1 Yes
- 2 No
- DK/REF

**EYECOLOR** The last question was a Yes-No question. Other questions will have more answers to choose from, and you will pick your answer from a list.

What color are your eyes? Put in the number that best fits you and press the [ENTER] key.

- 1 Blue
- 2 Brown
- 3 Gray
- 4 Green
- 5 Some other color
- DK/REF

**ALLAPPLY** Some questions will let you choose more than one answer. For these questions, you will use the space bar to separate the answers you type in. Practice this now.

What kinds of music do you listen to?

To select more than one kind of music from the list, press the space bar between each number you type. When you have finished, press the [ENTER] key to go to the next question.

- 1 Classical
- 2 Country
- 3 Hip Hop
- 4 Jazz
- 5 Latin American/Spanish
- 6 Other Folk/Ethnic
- 7 Pop/Rock
- 8 Soul/R&B
- 9 Techno

When do you want to interrupt this list?

- 1 First answer
  - 2 Second answer
  - 3 Third answer
  - 4 Fourth answer
- DK/REF

**BACKUP**

If you want to change or see your answer to a previous question, you can back up using the [F9] key. Each time you press the [F9] key, the computer will go back one question.

Press [ENTER] to continue.

**DOAGAIN**

You can tell the computer to repeat a question by pressing [F10]. Try this now.

How many times did you listen to this screen?

- 1 I have listened to this screen more than once.
  - 2 I have only listened to this screen one time
- DK/REF

**rangeerr**

For some questions, the computer can only accept certain answers. For example, in the question below, the only numbers the computer will accept are 1 for YES or 2 for NO.

If you try to enter some other number, an instruction **Input Invalid** box will appear. To correct your answer, you must press the [ENTER] key to make the box disappear and then use the **Backspace** key to remove your old answer. You can then answer the question again.

Try this with the question below. Type a 3 as your answer. Press the [ENTER] key to remove the instruction **Input Invalid** box, then —Use the **Backspace** key to remove your answer and type in a valid answer.

Do you have a cat?

- 1 Yes
  - 2 No
- DK/REF

**INCON SIS**

At times the computer may ask you to think again about one of your answers. Other times, it may think two of your answers disagree. It will ask you to tell which one is correct and then fix the wrong one.

Also, at certain times the computer will tell you to ask your interviewer to show you some pictures. At that time, be sure to ask for these pictures.

Press [ENTER] to continue.

**ANYQUES**

If you have any questions, ask your interviewer now. If not, press [ENTER] to begin.

## Inhalants

**INHINTRO** These next questions are about liquids, sprays, and gases that people sniff or inhale to get high or to make them feel good.

We are not interested in times when you inhaled a substance accidentally — such as when painting, cleaning an oven, or filling a car with gasoline. The questions use the word ‘inhalant’ to include all the things listed below, as well as any other substances that people sniff or inhale for kicks or to get high. Take a moment to look at the substances listed below so you know what kinds of liquids, sprays, and gases these questions are about.

Amyl nitrite, ‘poppers,’ locker room odorizers, or ‘rush’  
Correction fluid, degreaser, or cleaning fluid  
Gasoline or lighter fluid  
Glue, shoe polish, or toluene  
Halothane, ether, or other anesthetics  
Lacquer thinner, or other paint solvents  
Lighter gases, such as butane or propane  
Nitrous oxide or ‘whippets’  
Spray paints  
Other aerosol sprays

**INTRPILL**

Now we have some questions about drugs that people are supposed to take only if they have a prescription from a doctor.

We are only interested in your use of a drug if:

- the drug was **not** prescribed for you, or
- you took the drug only for the experience or feeling it caused.

Press [ENTER] to continue.

## Pain Relievers

**INTROPRI** These questions are about the use of **pain relievers**. We are **not** interested in your use of “over-the-counter” pain relievers such as aspirin, Tylenol, or Advil that can be bought in drug stores or grocery stores without a doctor’s prescription.

Ask your interviewer to show you Card A.

Press [ENTER] to continue.

**INTROPRI2** Card A shows pictures of some different kinds of prescription pain relievers and lists the names of some others. These pictures show only pills, but we are interested in your use of **any** form of prescription pain relievers that were **not** prescribed for you or that you took only for the experience or feeling they caused.

Please look at Card A carefully as you answer the next questions.

Press [ENTER] to continue.

**PR01** Please look at the pain relievers shown in Box 1 **above** the red line on Card A.

Have you ever, even once, used **Darvocet, Darvon, or Tylenol with codeine** that was **not** prescribed for you or that you took only for the experience or feeling it caused?

1 Yes  
2 No

## Stimulants

**INTROST1** These next questions ask about the use of drugs such as amphetamines that are known as **stimulants**, 'uppers,' or 'speed.' People sometimes take these drugs to lose weight, to stay awake, or for attention deficit disorders. We are **not** interested in the use of "over-the-counter" stimulants such as Dexatrim or No-Doz that can be bought in drug stores or grocery stores without a doctor's prescription.

Ask your interviewer to show you Card C.

## Sedatives

**INTROSV1** These next questions ask about the use of **sedatives or barbiturates**. These drugs are also called “downers” or “sleeping pills.” People take these drugs to help them relax or to help them sleep. We are not interested in the use of “over-the-counter” sedatives such as Sominex, Unisom, Nytol, or Benadryl that can be bought in drug stores or grocery stores without a doctor’s prescription.

Ask your interviewer to show you Card D.

Press [ENTER] to continue.

**INTROSV2** Card D shows pictures of some different kinds of prescription sedatives and lists the names of some others. These pictures show only pills, but we are interested in your use of **any** prescription sedatives that were **not** prescribed for you, or that you took only for the experience or feeling they caused.

Please look at Card D carefully as you answer the next questions.

Press [ENTER] to continue.

**SV01** Please look at the sedatives shown in Box 1 **above** the red line on Card D.

These programs cover children from low-income families who do not have private health insurance and who do not qualify for other Medicaid programs.

**QHI03** (Are you/Is **SAMPLE MEMBER**) currently covered by TRICARE, or CHAMPUS, CHAMPVA, the VA, or military health care?

These programs cover active duty and retired career military personnel and their dependents and survivors and also disabled veterans and their dependents and survivors.

- 1 YES
- 2 NO
- DK/REF

**INTERVIEWER NOTE:**

CHAMPUS stands for Comprehensive Health and Medical Plan for the Uniformed Services. It provides health care in private facilities for dependents of military personnel on active duty or retired for reasons other than disability. In some areas, this may be known as TRICARE.

CHAMPVA stands for Comprehensive Health and Medical Plan of the Veterans Administration. It provides health care for the spouse, dependents, or survivors of a veteran who has a total, permanent service-connected disability.

Military health care refers to health care available to active duty personnel and their dependents; in addition, the VA provides medical assistance to veterans of the Armed Forces, particularly those with service-connected ailments.
