NYS WAVE 1 1976:  
National Youth Survey

1) Previously, SAMHDA generated variables (V1, V2, V3, & V4) to provide study information about the dataset. These are no longer created by SAMHDA. The four variables have been removed.

2) As a result of the removal of the four variables mentioned in the 1<sup>st</sup> note above, users should refer to the SAS or SPSS data definition statement files for column locations of variables in the data file. The column locations detailed in Appendix A apply to the original data only.
